'Teaching Methods and Standardization Process'

The modern world demands the quality teaching and innovative approach. The teaching skills have to be enriched as per the global market trends. Mr. Anil Yeole has conducted a workshop on the 'Teaching Methods and Standardization Process' on 6th December, 2017.

The standardization process is expecting the updates and new methodologies to be observed. The intellectual power of the teachers has to be upgraded and meet the challenges of the education scenario. The use of ICT has got premier importance which accelerates the performance of the individual teacher in the class. Various applications and modules are emerging therefore, the teachers may use it.

Prin. Dr. Dinanath Patil was in the chair. He explained the need of standardization process and the commitment of the teachers. A good teacher is the backbone of the country which can shape the clay like minds of the students.

Dr. Dinanath Patil
